Technology  
**ASP.NET | .NET Framework 4.0 & SAP Di Api | HANA Database**

**Silver Touch**  
TECHNOLOGIES

## Pain Areas

- No real time information
- Inaccurate manual reports
- Voluminous data management (5 sub companies)
- Lack of functional integration within the organization

## Why SAP B1

- Single integrated system for the whole business
- Reduce reliance on manual processes
- Move manufacturing control out of MS Excel and into the core system
- Improve customer service by providing accurate delivery estimates

## Implementation Highlights

- 5 different companies with different businesses verticals implemented
- Designing Item coding for different stages of manufacturing
- E-Mail Add-on integration for Auto Email to vendors & customers

## Benefits

- Excellent reporting capabilities
- Automating procurement process
- Optimize procurement, integrate warehouses and accounting
- Integration between various functions within the organization

## Key Challenges

- Lack of qualified manpower
- Complex manufacturing process
- System adaptability
- Company wise Email add-on configuration
