SAP Business One ERP

Technology
ASP.NET | .NET Framework 4.0 & SAP Di Api | HANA Database

SAP Partner

Pain Areas

- Manual process performed through different stages
- Diffcult to calculate the product cost
- Provide better services and improve delivery time for clients
- Real time integrated data not available
- No real time status of production

Why SAP B1

- Better fit as per the Organization's requirements
- Complete business management functionalities in single system
- Accurate production cost
- World-class application with powerful, user-friendly functionality that empowers business users from the warehouse floor to the executive suite
- Scalability meets with growth expectations

Key Challenges

- Complex Production and job work process
- Reduce labor requirements and opportunities for human error
- To Relieve from Manual Work
- To gain a real time view of operations in organization

Benefits

- Entire manufacturing process on SAP B1 which was on papers earlier
- Benefited from vertical expertise of implementation partner
- Due to accuracy in product cost, increased profit of the company

Implementation Highlights

- Implemented on budget within 1.5 months
- Systematic approach
- Management involvement

Young. Agile. Lean. Competitive.
